

The goal of T.D.E. is to maintain and enforce its position on the Italian and international market as a manufacturer of electronic components for different applications (telecommunications, industrial, medical and scientific) ensuring the maximum customer satisfaction.

To achieve this goal, the General Management has approved a Quality Management System compliant with ISO 9001: 2015, with the following purposes:

Design, production, testing, repair of electronic devices

The Quality Policy is based on the application of the following guidelines:

- understanding and respecting the needs of interested parties (customers, employees, owner, suppliers, community)
- analysis and management of the context and risks that impact on the functioning of the Organization
- compliance with applicable requirements and legal provisions, in particular with regard to the safety and electromagnetic compatibility of products
- availability of resources to implement corporate processes
- commitment to continuous improvement
- updating of skills and know-how
- relationship of mutual benefit with suppliers
- search for new markets and customers

By implementing this policy at all company levels, the Management of T.D.E. undertakes to manufacture and supply products designed, built and installed using organizational and work materials and methodologies that meet all the technical and economic requirements of the contract, in compliance with the agreed times.

Fiano Romano, 06/06/2019

The General Manager
